IMPORTANT PLANNING NOTES

- The primary major must be Science. The secondary major can be Science or Arts. See Degree Regulations (above) for minimum Science course requirements.
- The Faculty of Arts and Science cannot guarantee that students completing multiple majors or minors will be able to complete their degree in eight consecutive fall and winter semesters. Also, depending on the configuration of the degree, meeting the requirements may require the completion of more than 120 credits for graduation. Students are strongly encouraged to consult with an academic advisor in the Faculty of Arts and Science Advising Office and a discipline advisor in their major and minor disciplines prior to declaration.
- MacEwan students with previous credit in WRIT 101 from another MacEwan program do not require ENGL 102 but must complete the additional 3 credits of ENGL (not including ENGL 111, 108, or 211). Bachelor of Arts and Bachelor of Science students cannot take WRIT 101 in place of the ENGL 102 requirement.
- The same course cannot be used to fulfill more than one requirement for a major(s) and/or minor(s). Additional coursework may be required to fulfill the credit requirements of the major(s) and/or minor(s).
- Courses with the notations of W (withdrawal), AU (audit), or TR (transfer) are not included in any GPA calculation.
- Your program of study is determined by the year in which you declare your major(s) and/or minors(s).
- **All program and degree requirements must be completed by May 1st for June convocation and by October 1st for November convocation.** In other words, you cannot be in courses required for your degree in the same term that you are graduating.
