**IMPORTANT PLANNING NOTES**

- Students may not declare more than one out-of-faculty minor. As a maximum of 18 out-of-faculty credits are allowed, students completing an out-of-faculty minor cannot have any other out-of-faculty courses in the degree. See Degree Regulations (above) for the minimum Science course requirements.
- Students completing a non-Science minor(s) must ensure they have a minimum of 72 credits (24 courses) of Science Courses. See Degree Regulations (above) for the minimum Arts course requirements.
- The Faculty of Arts and Science cannot guarantee that students completing multiple majors or minors will be able to complete their degree in eight consecutive fall and winter semesters. Also, depending on the configuration of the degree, meeting the requirements may require the completion of more than 120 credits for graduation. Students are strongly encouraged to consult with an academic advisor in the Faculty of Arts and Science Advising Office and a discipline advisor in their major and minor disciplines prior to declaration.
- Restricted Enrolment Courses. While we strive to accommodate all students wishing to enrol in a given course when it is appropriate to their program, some courses must, for academic reasons, be restricted in size. If such a course is found to be oversubscribed, priority in registration will be given to those students whose programs may require it (e.g., majors, Honours, and/or minors) and then to other students as space permits.
- Your program of study is determined by the year in which you declare your major(s) and/or minors(s).
- **All program and degree requirements must be completed by May 1st for June convocation and by October 1st for November convocation.** In other words, you cannot be in courses required for your degree in the same term that you are graduating.

**MY NOTES**

**THIS DOCUMENT IS A GUIDE ONLY**

Students are responsible for planning and understanding their degree. The information in this document, including the checklists and notes are intended to provide an overview of degree regulations, but it is not comprehensive. See the Academic Calendar for a complete list of degree regulations and specific program requirements.
