

REQUIRED JUNIOR LEVEL COURSES^{1,3}

3 - 6 CREDITS

- CMPT 101: Introduction to Computing I
- CMPT 103: Introduction to Computing II²
- Students who have previously completed CMPT 114 and CMPT 115 may use those courses to fulfill this requirement.⁴*

To meet the requirements of this minor, students must complete a minimum of six credits at the 300- or 400-level.

REQUIRED SENIOR LEVEL COURSES

6 CREDITS

- 3 CREDITS** CMPT 200: Data Structures and their Algorithms⁴
- 3 CREDITS** CMPT 201: Practical Programming Methodology
- CMPT 204: Algorithms I
- CMPT 291: Introduction to Relational Databases

GENERAL REQUIREMENTS^{5,6}

12 CREDITS

IMPORTANT PLANNING NOTES

1. These courses can be used to satisfy core requirements in the Bachelor of Science or Bachelor of Arts degree.
2. The prerequisites for **CMPT 103** are **CMPT 101** or, at the high school level, three credits of intermediate CSE including CSE 2120. If students possess high school level prerequisites, they are required to complete 3 credits of junior level prerequisites for this major (**CMPT 103**). If students do not possess high school level prerequisites, they must complete 6 credits of junior level prerequisites (**CMPT 101** and **CMPT 103**).
3. Students are required to consult with the MacEwan University Academic Calendar to ensure they meet the prerequisite for all Computer Science courses they enrol in.
4. Students who completed **CMPT 114** and **CMPT 115** as their prerequisite junior courses cannot take **CMPT 200** and must complete 15 credits of general requirements, instead of 12 credits.
5. Arts students who choose a Computer Science minor must comply with Bachelor of Science minor residency requirements. Science minors must complete a minimum of nine senior level MacEwan University credits, including a minimum of three credits at the 300- or 400-level.
6. Students may see **CMPT 310: Computers & Society** and **CMPT 311: Phenomenon Technology** listed in *myStudentSystem*. These courses cannot be taken toward a Computer Science minor. Students minoring in Computer Science may take these course toward their Options. **CMPT 310** and **CMPT 311** do count toward a student's 6CR senior-level maximum in their major or minor discipline.
7. Students may take **CMPT 399** and **CMPT 499** for credit a maximum of two times, as long as the course topic is different each time they take any of the courses. Students may take **CMPT 496** and **CMPT 498** for credit a maximum of two times.
