

**When do I have to take a Gateway Exam for MATH 114?**

You have to write the exam if you don't meet the MATH 114 prerequisites in another way. The prerequisites are one of the following: a final grade of 80% or better in Math 30-1, or credit in Math 31, or a minimum final grade of C- in MATH 099, or successful completion of the Gateway Exam.

**Does it cost anything to write the exam?**

There is no cost for the exam.

**What is on the exam?**

The exam covers material from high school, with special emphasis on algebra, trigonometry, and functions. The Math 114 Gateway Exam information page on the Mathematics discipline website ([www.macewan.ca/mathematics](http://www.macewan.ca/mathematics)) links to a set of practice problems you can attempt. Appendices A, B, C, and D in the MATH 114 textbook (Stewart, *Calculus*, 7e) illustrate the range of material also tested. For further information or extra help, email Dr. Nataliya Zadorozhna at [zadorozhnan@macewan.ca](mailto:zadorozhnan@macewan.ca).

**What should I bring to the exam?**

Please bring photo ID. You cannot use a calculator for this exam.

**How many times can I write the exam?**

**You only get two attempts (once per term) to pass the MATH 114 Gateway Exam.**

**What if I don't pass the exam?**

You can complete MATH 099 with a final grade of C- or better. You can enrol in MATH 099 via *myStudentSystem*. Remember: MATH 099 is not a university-level course. It will not count toward your Bachelor's degree.

Alternately, you can take Math 30-1 and get a final grade of 80% or better. If you would like to upgrade high school equivalent courses with MacEwan University, please contact our Preparation for University and College program at 780-497-4029.

**What's my next step if I do pass?**

If you are not already enrolled in MATH 114, you can go ahead and enrol yourself via *myStudentSystem*.

**If I don't have the 80% or better in Math 30-1, or Math 31, or a minimum grade of C- in MATH 099, can I enrol in MATH 114 before passing the Gateway Exam?**

Yes, but it is your responsibility to ensure that you have met the requirements before the last day to add/drop courses in the term. If you successfully complete a course without presenting the prerequisite, you may not receive credit for that course. Alternately, you could be withdrawn from the course mid-semester. If you are withdrawn for missing prerequisites, you are not eligible to have your tuition refunded.

**Math 30-1 and equivalents**

Whenever we refer to Math 30-1 in this document, equivalent courses may also be presented. For example, Alberta's Pure Math 30 and BC's Math 12 are equivalent to Math 30-1.

**Who do I contact about writing the MATH 114 Gateway Exam?**

Check [www.macewan.ca/mathematics](http://www.macewan.ca/mathematics) and select the "Gateway Exam" box on the right for upcoming dates and other information.
