

# CONSTRUCTION NOTICE

November 2022

## What's happening?

**On November 14**, our crews will be installing a new underground vault and duct bank, which will enclose underground electrical equipment. This new vault and duct bank will be located in the alley way, between 100 Street and 101 Street, south of Jasper Avenue (see Construction Map on the back page).

To complete this work, traffic in the alley way, between 100 Street and 101 Street, south of Jasper Avenue, may be restricted at times. Please expect occasional delays during work hours.

## Schedule

This work is scheduled to begin November 14, and last approximately 3 weeks, weather permitting.

This work will occur Monday to Friday, from 8:00 a.m. to 4:00 p.m.

## Safety

The construction area will be fenced and marked as a restricted area. Signs will be used to detour vehicles and pedestrians around the worksite. We will take every precaution to ensure public safety.

We also need your assistance in maintaining a safe distance from the construction site and the equipment.

We thank you for your patience and understanding as we undertake this necessary work.

## What to expect

- Alley way, between 100 Street and 101 Street, south of Jasper Avenue, will be occasionally restricted during work hours.
- Construction equipment such as an excavator with concrete breaker, a crane, gravel trucks, concrete mixers, and EPCOR/contractor vehicles will be required.
- Residents will experience noise typical to construction, during the daytime, as various equipment and trucks will be used for material delivery, breaking concrete and surface restoration. We will comply with the City of Edmonton's Community Standards Bylaw for Noise Control and the necessary noise permits will be obtained.
- Affected landscaping, pavement and sidewalks within the work area will be restored to their original condition when weather permits.
