

# Step into greatness

## **Treaty 6 Territory Land Acknowledgment**

*We acknowledge that the land on which we gather in Treaty Six Territory is the traditional gathering place for many Indigenous people. We honour and respect the history, languages, ceremonies and culture of the First Nations, Métis and Inuit who call this territory home.*

*The First Peoples' connection to the land teaches us about our inherent responsibility to protect and respect Mother Earth. With this acknowledgement, we honour the ancestors and children who have been buried here, missing and murdered Indigenous women and men, and the process of ongoing collective healing for all human beings. We are reminded that we are all treaty people and of the responsibility we have to one another.*

# Welcome to MacEwan

Hello from MacEwan! The decision to pursue post-secondary education is an important one, and we're excited that you're considering coming to MacEwan.

MacEwan offers an exceptional undergraduate experience from faculty who genuinely focus on you and your success. Students at MacEwan also join our vibrant campus in the heart of downtown Edmonton, one of the most affordable and exciting big cities in Canada.

On top of great restaurants, festivals and events to enjoy, you'll experience the wonders of Canada – snowy winters, northern lights, long summer days and the Rocky Mountains.

Get ready for an incredible university experience – we can't wait to meet you!

A handwritten signature in black ink that reads "A. Trimbee".

**Dr. Annette Trimbee**  
President and Vice-Chancellor

**Since we opened our doors in 1971, MacEwan has grown from a small community college to a place where students like you expand their horizons, find their passions and learn on their own terms. And we're still growing – both in our physical space on campus and in the ways we're able to support you as you prepare to launch your education and career.**

\*2024/25  
\*\*not including majors

MacEwan International works with 40 global university partners in 22 countries. Our international students come from more than 70 different countries, bringing with them their culture and traditions, enriching the campus community.

# Find yourself in Edmonton

Get a true Canadian  
experience in  
Edmonton – Alberta's  
capital city and the  
northernmost major  
city in Canada.

**5<sup>TH</sup>**

LARGEST CITY  
IN CANADA

**321**

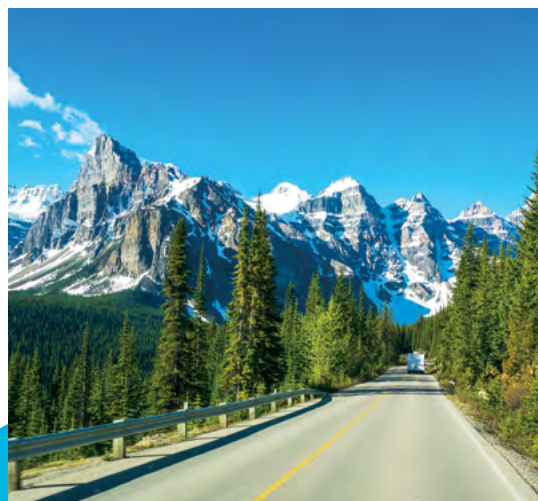

DAYS OF SUNSHINE  
PER YEAR (AVERAGE)

Edmonton is a welcoming, diverse city offering excellent quality of life and world-class education. With affordable living, rich cultural experiences and a strong economy, it's a supportive place for students to thrive.

Our downtown campus provides direct access to some of the city's best opportunities. Just steps away are award-winning restaurants, nightlife venues and the North Saskatchewan River Valley – Canada's largest urban park.

Venture beyond downtown to explore seasonal festivals, Canada's largest mall (complete with waterpark), Fort Edmonton Park – the country's biggest living history museum – and the Muttart Conservatory's botanical gardens. For weekend adventures, the stunning Rocky Mountains and Drumheller – the world's dinosaur capital – are just a few hours away by car.

**Edmonton is the only UNESCO Learning City in Canada, recognized for prioritizing accessible, equitable and evolving learning opportunities.**

# The start of something great

**At MacEwan, you get more than an education. You join a community that's ready to support you every step of the way. With right-sized classes, encouraging professors and a vibrant campus buzzing with activity, you'll find the perfect environment to thrive.**

# Set yourself up for success

## Flightpath

Navigating your first year can feel overwhelming – which is why we created Flightpath, a program designed specifically for first-year students.

Flexible and inclusive, Flightpath includes key activities like university orientation, helpful resources and networking opportunities to help you build a strong foundation for success.

One key part of Flightpath is **Community Nests**, a peer-led support program where senior students – or Nest Leaders – introduce you to a vibrant community of peers, connect you with other first-year students and share valuable insights about being a student at MacEwan University.

Through weekly meetups, monthly social events and shared experiences, you'll have the support you need to settle in, build friendships and take off with confidence from day one.

You can join the program at any time during your first year.

# Expand your experience

## Out-of-class opportunities

One of the best ways to get started is to get involved! Join one of over 100 student groups at MacEwan to find your community – or start one of your own. Take part in themed weeks for important causes, from Consent Action Week to Pride Week. Expand your social circle while doing fulfilling work and building your resumé through volunteer opportunities like the MacEwan Ambassador program.

## Events

MacEwan's campus is always buzzing with activity. Don't miss out on these must-attend events:

- **New International Student Orientation:** Start your year off strong and get the lowdown on everything you need to know. All new international students receive an invitation.
- **Students' Association of MacEwan University's (SAMU's) Fall Fest:** Hang out with fellow students, catch live sets by local and international artists, enter contests and more.
- **Theatre and music shows:** Enjoy creative performances by fellow students in our state-of-the-art facilities.
- **Career fairs:** It's never too early to connect with potential employers and learn about career options.

*I have made more friends in the last four or five months than I did in my two years at my previous university.*

**Elyse Froberg**

Bachelor of Commerce student

**Women in Business Club co-founder**

Hear from other students about their experiences at MacEwan.

# Your education, your way

**Your life is unique.  
Your education  
should be, too.**

Study full or part time, leave with a certificate or diploma, or come back to get your degree using existing credentials to shorten your study time. Start in September or January, take spring and summer terms, learn in the evenings or find remote or hybrid courses.

Make your education fit your needs, no matter what they are.

FACULTIES  
AND SCHOOLS

**93**

PROGRAMS\*

\*including majors, 2024/25

Average program length

**4 YEARS**

## DEGREE

**Specialize in more than one field of study for a richer learning experience as you pursue a bachelor's degree – which is required by many industries.**

MacEwan offers degrees in arts, commerce, nursing, science and more. Personalize your experience by choosing your major and minor – you can even choose from a number of out-of-faculty minors if your interests are varied – or focus on just one discipline with an honours degree.

Bachelor's degrees can also serve as the foundation for further education if you're interested in pursuing your master's or doctoral degree. Depending on your degree, there may be requirements for practicums or field placements.

Average program length

**2-3 YEARS**

## DIPLOMA

**Launch your career sooner with a more focused approach to your program of choice.**

Diploma programs provide both classroom and practical knowledge in your field of study, without having a secondary specialty or minor. Explore options such as business management, police and investigations or social work.

Average program length

**1 YEAR**

## CERTIFICATE

**Prepare for a specialized career in a certificate program, without broader learning requirements.**

After graduating, you may have the option to use your certificate credits to earn a diploma in the same or a similar field faster.

## SCHOOL OF CONTINUING EDUCATION

MacEwan's School of Continuing Education is here for every stage of your learning experience. Upgrade high-school skills to a university level before applying to post-secondary. Explore micro-credentials to boost your existing degree, diploma or certificate, or expand your knowledge and skills with professional development opportunities specific to your industry.

# Connect theory to practice

## Experiential learning

A majority of MacEwan programs have a work-integrated learning component.\*

100%

OF DEGREE PROGRAMS

87%

OF DIPLOMA PROGRAMS

73%

OF CERTIFICATE PROGRAMS

*Being an international student with less experience in the Canadian market, co-ops were crucial in shaping and fast-tracking my career. I currently work in an oil and gas distribution company as a pricing and content lead.*

**Manpreet Kaur**

Bachelor of Commerce '18

**Getting career-ready requires more than just lecture-based learning. You can expect a well-rounded education, with opportunities for hands-on learning directly in your field of study. Some programs may have specific requirements for types of experiential learning, or you may be able to choose which options work best for you.**

#### **Work-integrated learning**

Combine your academic studies with real-world application in a workplace or practice setting. This requires a partnership between MacEwan, a student and a host organization where students are able to gain experience. Depending on your program, that experience could take place in settings including classrooms, offices, labs, hospitals and more.

#### **Internships**

Gain workplace experience and academic credits in a supervised, structured environment.

#### **Practicums**

Learn under an experienced, licensed professional in order to gain hands-on skills for your own certification.

#### **Field placements**

Gain skills in a short-term placement in a real work environment relevant to your program.

#### **Community-engaged learning**

Build relationships, conduct research and solve real problems while working with community organizations here in Edmonton.

#### **Co-operative education (Bachelor of Commerce)**

Spend a term (or more) working directly in your field in a paid placement.

#### **Education abroad**

Broaden your horizons as you complete your education or build your skill set. Education Abroad can help you expand your academic, personal and professional experience through exchanges, internships and summer programs. Go for a summer, a term or a year – find a timeline and destination that work for you!

*For some types of experiential learning, a co-op work permit is required. Be sure to check your program requirements for experiential learning components.*

# MacEwan International

**MacEwan International supports international students in achieving their academic goals, and provides global learning opportunities through partnerships with schools around the world.**

### **International students**

We're here to help every step of the way, answering questions about immigration and study permits, departure and arrival, and housing and finances in Edmonton. Once you're settled in, we'll also help you navigate student life to make the most of your MacEwan experience.

### **Support services**

- Help with choosing the right program
- Settlement guidance
- Academic and immigration advising
- Volunteer opportunities
- Fun events

### **Exchange students**

Studying abroad is about learning alongside people whose worldviews differ from your own. It's about choosing an academic path that challenges you in new ways. It's about opening doors.

When our partner university students choose to study at MacEwan, they become part of the MacEwan family. MacEwan provides a supportive environment to help students manage and enjoy their experience in the classroom and beyond.

To attend MacEwan University as an exchange student, your home university must have a formal agreement with us. Contact an exchange advisor at your institution for information on exchange agreements and the nomination process.

MacEwan International hosts fun, free events for current students and online learning opportunities for both current and future students. Celebrate your own culture while discovering more about Canada – from holiday dinners to winter ice skating lessons.

**Check out upcoming events and opportunities!**

## 301

PRESENTATIONS ON  
STUDENT RESEARCH  
DAY (2025)

### Expand your understanding of key societal issues and find solutions to real problems.

MacEwan is a national leader in undergraduate research. Many of our faculties and schools are home to facilities dedicated to hands-on learning opportunities, and our expert faculty use them in their pursuit of information and answers. Students are able to work alongside their professors in research capacities, and even pursue their own research independently – an opportunity not offered at most undergrad universities.

Those students are invited to present at **Student Research Day** each year, where they give an oral or poster presentation detailing their work. From scientific experiments to art creations to community-based scholarship, these students are trendsetters and trend breakers, pursuing

new hypotheses and asking important questions. Students can also publish their findings in the **MacEwan University Student eJournal (MUSE)**.

The **Office of Research Services** offers workshops to equip you with everything you need to start your research project. **MacEwan's Undergraduate Student Research Initiative (USRI)** also provides grants to students looking to pursue their own research in their academic field. They can help you apply for external research awards and research studentships, both provincially and federally.

Several of our faculty are featured each year in the **Report on Scholarship**, showcasing their latest projects or major findings. And our students are just as accomplished, winning awards for researching everything from the dark side of online communities to developing antibiotics for drug-resistant bacteria species.

## A few recent research projects:

**AI in Journalism: Ethics  
Misinformation and the  
Future of News**

**Assessing NHL Contract  
Valuation Through  
Statistical Modeling**

**Drone-Based Automated  
Agricultural Sampling**

*My biggest takeaway is how complex and important antimicrobial research is and how much more there is to discover. This project showed me how even small experiments can contribute to bigger conversations in science.*

### **Sahiba Pahwa**

Biology student and 2025 Student Research Day presenter

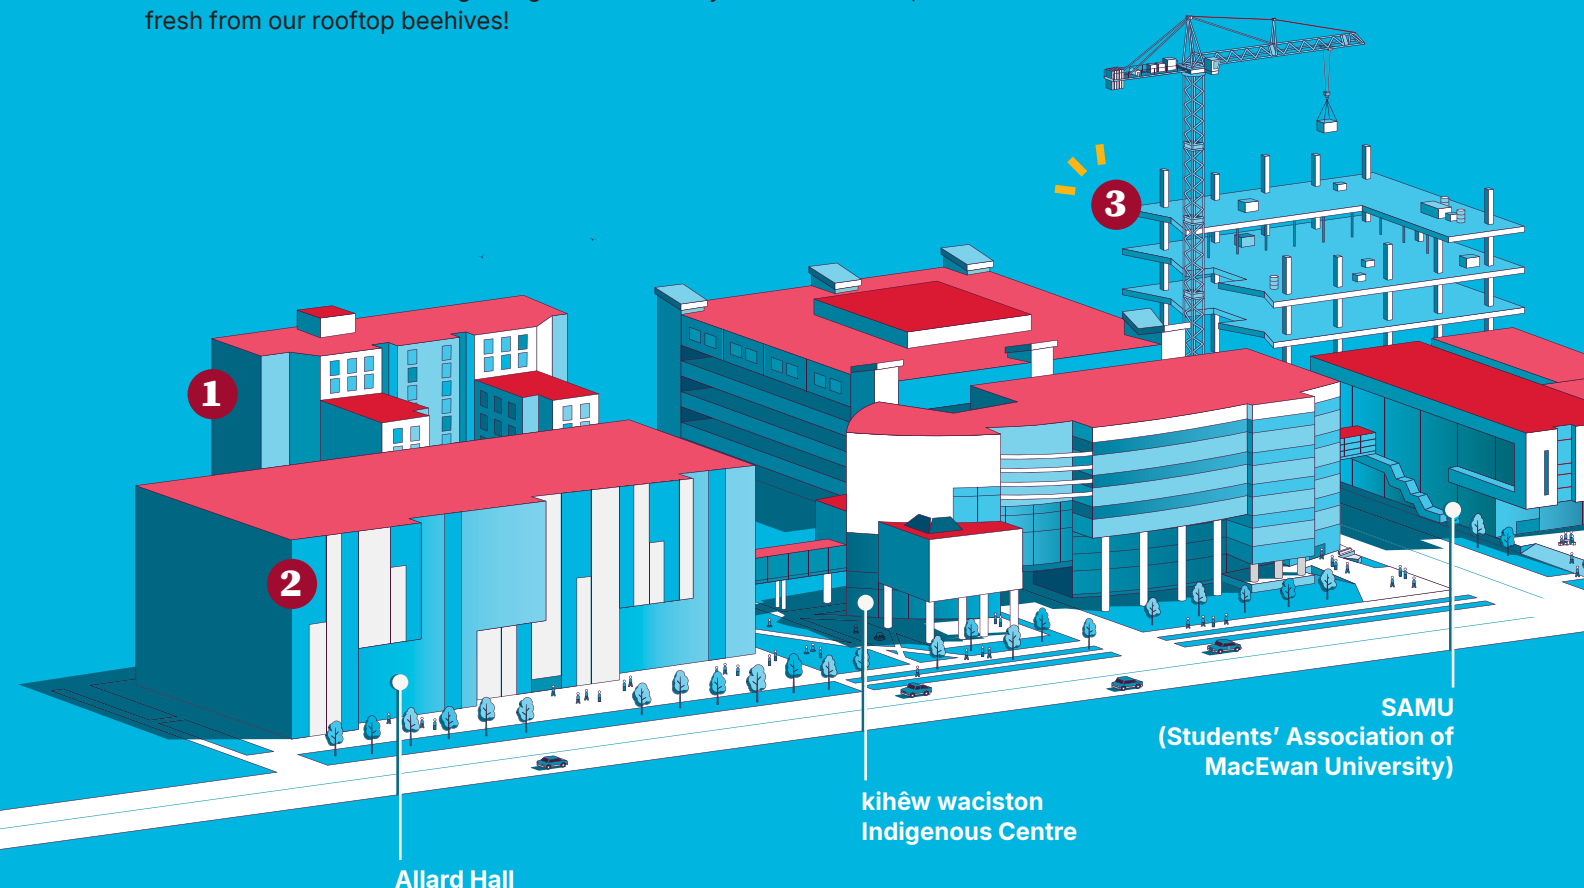

*Sahiba Pahwa is researching ways to combat antibiotic resistance. She continued her work in a paid summer studentship through funding from Alberta Innovates.*

# Get to know your campus

**MacEwan is one of only a handful of universities in Canada that are fully embedded in a city's downtown. Stretching across six city blocks, our campus provides a mix of indoor connections and green space, including patio areas and a community garden.**

We're also building a more sustainable campus every day, from solar panels on our roofs to the Tower Gardens Project, a sustainable source of food for our campus. Participate in recycling and composting initiatives across campus, including a reusable container program at participating food services. And don't forget to grab some honey at the bookstore, fresh from our rooftop beehives!

## 1 Residence

Live on campus and avoid the stresses of a morning commute. Residence offers amenities like a theatre space, game room and more. Head to page 26 to learn more.

## 2 TV studio

Learn how to work both in front of and behind the camera in Allard Hall's TV studio. The space is so professional, CBS' *48 Hours* even filmed an episode there!

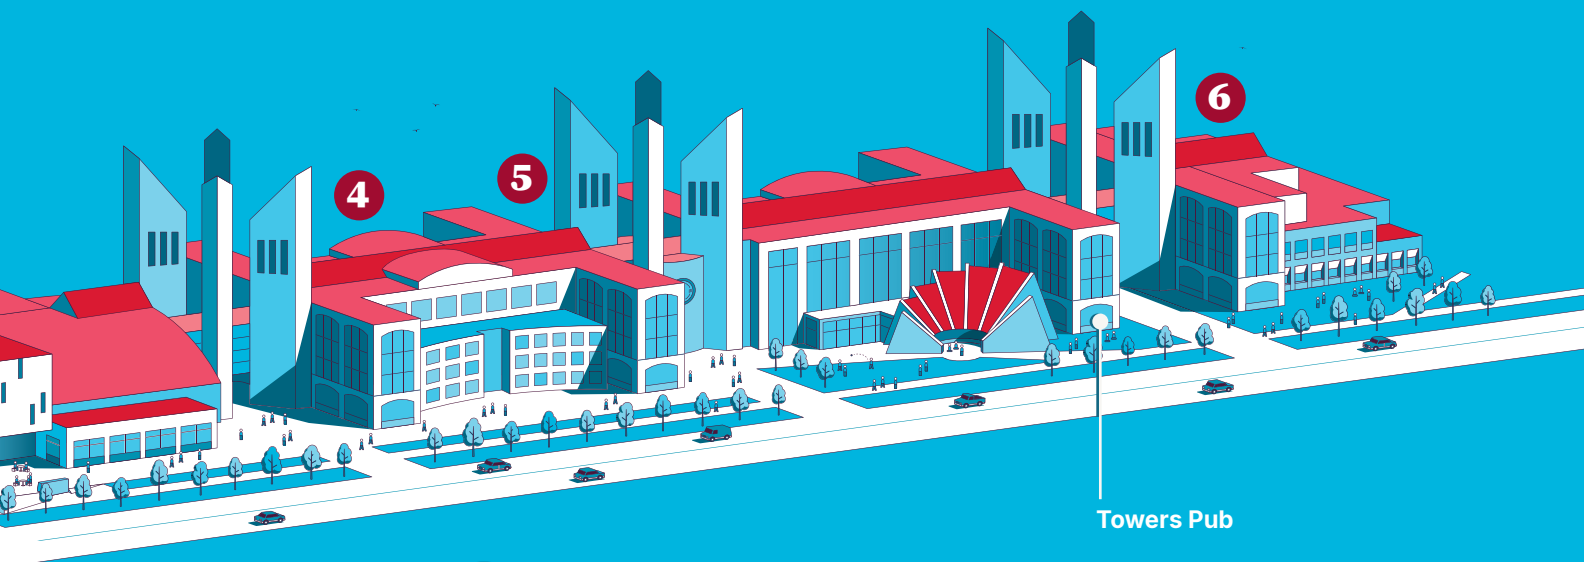

## 3 **NEW** School of Business building

Opening in 2027, the School of Business building will feature a live trading floor, state-of-the-art tech and innovative spaces – but it isn't just for business students. With more than 30 new classrooms, the building will create space for an additional 7,500 students on campus each day.

## 4 Library

The John L. Haar Library isn't just a place to find books – though there are plenty of those, too! Rent tech from GoPros to laptops, get help with your assignments and find quiet study space at any time of the semester.

Towers Pub

## 5 Makerspace

Flex your creative muscles with resources ranging from 3D printers and sewing machines to vinyl and laser cutters – all totally free to students!

## 6 Zebrafish lab

Zebrafish are the third most common animal in neurological research behind rats and mice. MacEwan's dedicated zebrafish lab supports groundbreaking research into anxiety, pharmaceuticals and more.

# Campus life

## More than classes

There's always something happening on campus! Catch a live concert or theatre show in Allard Hall, check out cool art at the John and Maggie Mitchell Art Gallery or grab MacEwan merch from the bookstore.

Check out [MacEwan.ca/Events](https://www.macewan.ca/events) to make sure you don't miss a thing.

## Fuel up

There are more than 15 food vendors on campus to satisfy any craving – whether it's coffee, pasta, sushi or something sweet. Food hubs located across campus – in Building 6, the SAMU Building and the Robbins Health Learning Centre – mean good eats are never far away.

## Move. Sweat. Recharge.

MacEwan's Sport and Wellness facilities are designed for all fitness levels. Check out the free weight drop zones, rowing machines, TRX suspension straps, open floor space, wheelchair-accessible weight and cardio machines, and more.

Your student ID gives you access to:

- Indoor swimming pool, hot tub and steam room,
- 12,000-square-foot fitness centre,
- Spin, yoga and aerobic studios,
- Free daily drop-in fitness classes,
- Discounted rates on swimming lessons and specialty fitness classes, and
- Fit Buddy program to help you get comfortable with Sport and Wellness spaces and activities.

Learn more at [MacEwan.ca/SportAndWellness](https://www.macewan.ca/sportandwellness).

Make the most of your  
university experience –  
your time on campus is  
yours to design.

# We're here for you

We're here to support you throughout your time as a student. Whether you need a little help with coursework or just someone to talk to, there's a service on campus that can help.

## ACADEMIC AND CAREER

### Academic Advising Centre

Reach out to the Academic Advising Centre with any questions about applying or changing your program. Individual faculties and schools also have academic advising options for information specific to your program.

### The Writing Centre

Get feedback on your writing to finesse your skills and ensure that you're handing in your best work.

### Career Services

Get advice on your chosen career path, expand your learning with webinars and extracurricular activities, get help building and editing your resume, and even access a job board. These supports are still available even after graduation, so you can be confident that you're starting your career on the right foot.

## WELL-BEING

### Mental and physical health supports

Students are assured they will have access to medical services offered through the MacEwan University Health Centre. Located next to campus, the centre continues to grow both its programs and its team of physicians and specialists.

In-person individual and group counselling is offered through Wellness and Psychological Services, while peer-to-peer support can be found through the Students' Association of MacEwan University's (SAMU) Peer Support Centre.

### Safe at MacEwan

Student safety is our top priority. Head to [MacEwan.ca/SafeAtMacEwan](https://MacEwan.ca/SafeAtMacEwan) to learn more about initiatives on campus, including 24/7 security services, how to access emergency assistance and support, and the Safe@MacEwan app, which sends important notifications to your phone.

### Access and Disability Resources

If you are a student with a disability, medical condition or other barriers to learning, we offer a variety of supports and accommodations, such as in-class support and exam services.

## CAMPUS COMMUNITY

### Centre for Sexual and Gender Diversity (CSGD)

The CSGD supports research, teaching, service work and initiatives related to sexual orientation, gender identity and gender expression on campus and in the community.

### Office of Human Rights (OHR)

The OHR works with the entire MacEwan community to create a campus that is free from discrimination through learning opportunities, policy development, events and initiatives to promote equity and diversity. Students are also able to access support if they've experienced discrimination on campus.

### kihêw waciston

Meaning "eagle's nest" in Cree, kihêw waciston is a home away from home for MacEwan's Indigenous students, offering personal, academic, financial and cultural support. Attend educational workshops, reflect through traditional practices and meet with on-site Knowledge Keepers while you're on campus. This welcoming space is open to all students who are looking to learn in a respectful way.

# Griff nation

**Our student athletes bring the heat in the classroom and on the field, court and ice.**

We're proud members of Canada West and U SPORTS, where our champions and all-stars compete for conference and national titles in basketball, hockey, soccer and volleyball.

MacEwan Griffins play and study with open hearts and minds, and work together to succeed – which means all students across campus are a part of the Griffins community. Grab a free ticket to any home game and cheer on our athletes as they go head-to-head with Canada's best.

*\*as of spring 2025*

# Celebrating 50 years

For five decades, MacEwan's community has embodied being Grand as a Griffin. With a storied history spanning more than a dozen sports, Griffins Athletics has showcased incredible talent.

In 2025, we celebrated our momentous anniversary by launching the next era of Griffins with a brand-new logo. The new branding highlights the tenacity, grit and dedication of the Griffins – qualities that define our athletes and resonate throughout the entire MacEwan student community.

# Live on campus

Living in residence puts you just steps away from class, nightlife, culture and entertainment, surrounded by a vibrant student community.

Incoming first-year, full-time students qualify for priority housing.

**Whether you're studying, grabbing food with friends or joining an event, residence life makes it easy to connect and make the most of your university experience.**

### WHY YOU'LL LOVE IT

- **Affordable and all-inclusive** – Fully furnished suites with high-speed Wi-Fi, electricity, heat and water included
- **Safe and supported** – Overnight security and 24/7 front desk service
- **Your space, your way** – Personalize your suite to make it feel like home
- **No commute** – Sleep in, grab coffee and be in class in minutes
- **Instant community** – Game nights, campus events and shared spaces to meet new people

Plus, take part in off-campus adventures like bowling, shopping trips, laser tag and scavenger hunts!

### AMENITIES

- Bachelor\*, two- and four-bedroom suites
- Private bedroom with shared kitchen, dining area and bathroom
- Entertainment spaces – a games room, theatre room and study/social lounges

*\*Bachelor suites are only available for returning residents.*

# School of Continuing Education

## Upgrade or continue your journey of learning and growth.

No matter where you are in your career, the School of Continuing Education can help you take the next step. Our English as an Additional Language (EAL) program is designed to build your confidence in listening, speaking, reading and writing – while also preparing you to meet the English Language Proficiency requirements for your post-secondary goals. Looking to grow your professional skill set? Our international professional development certificates can help you stand out and advance in your career. Wherever you're headed, we have the tools and training to help you get there.

  - Project Management

# Our legacy is your legacy

Our alumni are making  
an incredible impact  
here in Edmonton and  
around the world.

Our grads include local and international business and community leaders, stars of stage and screen, internationally recognized researchers – and even a Nobel prize winner.

After you graduate, choose to go on to post-grad studies, conduct incredible research or come back for another credential later in your career. A MacEwan education will help you on whichever path you choose – and might inspire you to forge a new one in an unexpected direction.

And some of our alumni are right here on campus, working as faculty and staff or as visitors to campus, returning to hold workshops, exhibitions and classroom visits to share their experience and expertise with current students.

*From student jobs to academic support, every opportunity helped shape my future. To new students: get involved, find a mentor, seek out challenges, interact with as many people as you can and enjoy the journey. You'll discover your potential in ways you never expected.*

## **Abdullah Al Muktadir**

**Bangladesh**  
Bachelor of Commerce '25

**Building campus community**

*Adaptability is probably the biggest quality I learned [on exchange]. I adapted to a new country and [learned] how to navigate it – a willingness to learn more as well. My exchange allowed me to learn new subjects I wouldn't have had the chance to if I didn't take the exchange.*

## **Amy Kempe**

**United Kingdom**  
Biomedical Science  
Biology exchange student

**Sharing culture with MacEwan**

*MacEwan gave me the space to grow, both personally and professionally. The supportive instructors, small class sizes and real opportunities to get involved gave me the tools I needed to devote my career to improving healthcare for Indigenous patients in my community.*

## **Kelsey Swank**

**Bachelor of Science in Nursing '18**  
Emerging Leader '25

**Promoting equitable health solutions**

*The small classes, honest conversations with professors and space to explore my identity helped me become the person I am today. MacEwan helped give me the confidence to go on to develop other leaders in high-risk industries and help elite athletes and competitors perform.*

## **Justin Yaassoub**

**Bachelor of Arts '11**  
Distinguished Alumni '18

**Supporting front-line business leaders**

# Paying for your education

Understanding the costs involved in pursuing higher education – and some ways to offset those costs – will help you make informed decisions about your future.

# Cost breakdown

The cost of your education will vary based on your program of study. Additional costs like textbooks and tech necessary for your coursework – as well as the cost of living – should be considered when planning your finances.

Your tuition and student fees already cover a few expenses, like a U-Pass for transit and a pass to MacEwan Sport and Wellness. For a breakdown of your MacEwan-related fees and costs specific to your program, head to [MacEwan.ca/TuitionFees](https://MacEwan.ca/TuitionFees).

We're also committed to helping to alleviate those costs. We're securing affordable downtown housing options, providing cheaper meals and helping with the cost of textbooks – and we're continuously looking for more ways to help.

## TUITION AND FEES

**The ranges below include estimated fees and textbooks for one academic year.\***

**Degree/diploma:** \$28,000 – \$30,000

**Specialized programs:** \$29,000 – \$34,000  
(Acupuncture, Bachelor of Design, Bachelor of Science in Nursing and Psychiatric Nursing)

**Foundation Program:** \$16,000 – \$18,000

**English as an Additional Language  
(14 weeks):** \$6,800

*\*All prices are in Canadian dollars*

### Calculate your costs

Calculate estimated tuition and fees for specific programs at [MacEwan.ca/InternationalFees](https://MacEwan.ca/InternationalFees).

# Offset your costs

The cost of education may seem overwhelming, but we're committed to helping you make that investment in yourself. MacEwan offers many unique scholarships annually, which are awarded for academic achievement.

You may receive an entrance scholarship when you begin your program. Entrance scholarships depend on your admission grade point average, and have different tiers of value based on those grades. International students can receive these scholarships when they enter a degree or diploma program at MacEwan.

Continuing scholarships are also available for top-performing international students in degree programs. Visit [MacEwan.ca/Scholarships](https://MacEwan.ca/Scholarships) for more information.

# How to apply

## Ready to find yourself at MacEwan? Take the first steps toward your educational goals.

### Choose a program (or two)

Find the area of study that most interests you. It's a good idea to select a second program to include in your application in case your first choice is full.

### Review requirements and deadlines

Check for admission requirements for your program of choice, and ensure you meet them. Some programs may have additional requirements, like auditions or portfolio submissions. Then, look at admission deadlines to ensure you apply in time for your desired start date.

### Talk to a recruiter

International recruiters will help you make a plan for your application and arrival in Edmonton. They're here to answer any questions you might have about the process.

### Submit your application

Apply for your program online. You'll receive a myMacEwan email, which will be used to provide you with further information or questions about your application. Be sure to check it often. You can also track your application progress through [myPortal.MacEwan.ca](https://myPortal.MacEwan.ca) using your student email address.

### Submit transcripts and documents

Document requirements vary by country, so check online to see what you will need to submit for academic records.

### Complete the process

Monitor your to-do list in the myStudentSystem portal for any changes or new requests. You may need to complete additional admission criteria. Once you've been accepted, you will need to accept or decline your offer of admission. Then, just pay your admission confirmation deposit to secure your spot in your program.

# University terms to know

## Classification of Instructional Program (CIP) code

CIP codes classify post-secondary education programs by field of study in Canada. All bachelor degrees are Post-graduation Work Permit (PGWP) eligible, regardless of field of study. Diplomas and certificates must have a CIP code on the IRCC's PGWP field of study list to be PGWP eligible. MacEwan's CIP codes are available on the MacEwan International webpage.

## Competitive admission

Admission is considered competitive in programs where the number of qualified applicants regularly exceeds the number of seats available.

## Co-op work permit

A co-op work permit allows you to participate in work-integrated learning that is a mandatory component of your study program. If your program has a work-integrated learning component, such as a practicum, clinical practice, field placement or co-op, you require a co-op work permit in addition to your study permit. You will receive additional documents when accepted if you need to apply for a co-op work permit together with your study permit.

## Early admission

MacEwan offers early admission to qualified applicants prior to the completion of their program's academic requirements. Applications will be evaluated based on final Grade 11 and/or Grade 12 courses and the other admission requirements. Specific requirements are located at [MacEwan.ca/EarlyAdmission](https://www.macewan.ca/EarlyAdmission).

## Major

In some programs, students choose a major – a particular area of study to focus on during their degree (e.g., in the Bachelor of Arts program, you might major in Anthropology or English, while in the Bachelor of Commerce, you might choose Marketing or International Business). Some programs do not have majors (e.g., Bachelor of Science in Nursing).

## Minor

Most programs that have majors often also have minors – a secondary area of focus. For example, a Bachelor of Arts student might major in Psychology and minor in Sociology.

## Offer of admission

An offer of admission means you have been admitted to your program of choice. After you receive an offer of admission or conditional admission, you need to accept or decline your offer.

## Provincial Attestation Letter (PAL)

A PAL is a letter provided by the province where you plan to study. It confirms that you have been assigned one of the available spaces to study in that province. The university requests a PAL on your behalf and will send you the letter shortly after your admission.

## Rank list / wait list

If you do not meet the current competitive admission criteria, you may be placed on a rank list. In the event that the competitive average, admission grade point average or score changes, you may be offered a spot. If you are admissible but there are no seats available in your program, you may be offered a place on a wait list.

## Study permit

A study permit allows international students to study while in Canada. You can apply to Immigration, Refugees and Citizenship Canada for a study permit once you are offered admission to the university and before you come to Canada.

## Term

The periods of instruction into which the academic year is usually divided: Fall, Winter and Spring/Summer. The term dates are published in the Academic Schedule.

# Frequently asked questions

## Does MacEwan University provide advice on course and program planning?

Yes, our Academic Advising Centre provides support with program selection, course planning and understanding academic requirements, including transfer credits.

## What is considered full-time student status?

A student is considered full-time if they are enrolled in nine or more credits per term – typically three courses. Some programs require students to take 15 to 18 credits each term. Talk to a recruiter or academic advisor to find out how many courses you will need to take each term in your program.

## Can I take a double major or minor?

Yes, you can pursue two different fields of study within a single degree program. You would fulfill the course requirements and earn a bachelor's degree with two listed majors, rather than two separate degrees.

You can also pursue a single major alongside two separate minors, letting you explore and develop knowledge in two different areas beyond your primary major.

## Am I able to apply to more than one program?

Yes. If you're interested in more than one program, you can indicate a first and second choice on your application.

## Are entrance scholarships available?

We have entrance scholarships for degree and diploma programs. See if you're eligible here.

## What is the difference between conditional admission and full admission?

Conditional admission means certain requirements that need to be completed by a specified deadline are still outstanding. This can include academic requirements like submitting final transcripts or non-academic requirements like paying an admission confirmation deposit. Full admission means that all admission requirements have been met, and the acceptance is guaranteed.

## Apart from tuition, what additional fees may apply, and where can I find more information about them?

The cost of textbooks will vary depending on your courses and instructor. There are also a few mandatory fees that are included in your total cost that allow you to access campus services. Learn more about those here.

## When should I apply?

Earlier is always better. Applications for Fall 2026 open October 1, 2025. Depending on the program – and term – you're applying for, application deadlines vary. Learn more here.

## Aside from classes, what opportunities are available to me as a student?

Get involved in research, volunteering, student clubs or contests. Whatever you're interested in, there's something here for you. Learn more here.

## How can I be sure I have everything in order ahead of arriving in Edmonton?

Visit [MacEwan.ca/International](https://www.macewan.ca/International) to learn everything you'll need to prepare for your arrival. Keep an eye out for upcoming webinars and info sessions. If you're still unsure, you can book an appointment to speak to an international student specialist.
