Important Planning Notes

1. Students who complete CMPT 101 can use this course as one of the general CMPT requirement of the major or streams.

2. Courses required for the major may be used to satisfy the breadth requirements in a Bachelor of Arts or Science degree. Please refer to the applicable degree planner for details.

3. Students are required to consult the MacEwan University academic calendar to ensure they meet prerequisites for all courses they enrol in.

4. The prerequisites for CMPT 103 are CMPT 101 or, at the high school level, three credits of intermediate CSE including CSE 2120. If students possess high school level prerequisites, they are required to complete 3 credits of junior-level prerequisites for this major (CMPT 103). If students do not possess high school level prerequisites, they must complete 6 credits of junior-level prerequisites (CMPT 101 and CMPT 103).

5. Students who have taken CMPT 114 and 115 cannot take CMPT 103 or 200 for credit. Students will need to replace CMPT 200 with another senior-level Computer Science course.

6. Students may take CMPT 399 and CMPT 499 for credit a maximum of two times, as long as the course topic is different each time they take any of the courses.

7. Students may take CMPT 496 and CMPT 498 for credits a maximum of two times, as long as the course topic is different each time they take any of the courses.

8. Students may use a maximum of 9 credits of independent work from CMPT 398, CMPT 496 and CMPT 498 to fulfill the minimum senior-level requirements.

9. *Engineering students who have successfully completed MATH 100, MATH 101, MATH 102, ENCP 100 will have the equivalents of MATH 114, MATH 115, MATH 125 and CMPT 101. See an advisor for full details.

10. Please keep in mind that course offerings will vary from academic year to academic year.
