### Overall Minor Requirements
- □ 18 senior-level, non-duplicative biology credits
- □ A minimum of 6 credits at the 300- or 400-level

### Required Courses for the Biological Sciences Minor

The courses listed below are not part of the biological sciences minor, but they are required minor courses.
- □ BIOL 107  Introduction to Cell Biology
- □ BIOL 108  Organisms in Their Environment

### Minor Requirements

<td></td>
</tr>
<tr>
<td>□ BIOL 208  Principles of Ecology</td>
<td></td>
</tr>
</tbody>
</table>

Choose 15 credits from senior-level Biochemistry, Biology, Botany, Genetics, or Zoology courses:
- □ ____________  □ ____________  □ ____________  (300- or 400-level)
- □ ____________  □ ____________  (300- or 400-level)

### Important Planning Notes
1. Courses required for the minor may be used to satisfy the breadth requirements in a Bachelor of Arts or Science degree. Please refer to the applicable degree planner for details.
2. Students are required to consult the MacEwan University academic calendar to ensure they meet prerequisites for all courses they enrol in.
3. BIOL 107 and BIOL 108 should be completed in the first year of a program and can be taken in either order.
4. All students minoring in Biological Sciences should take careful note of the term in which courses are offered; many essential senior-level Biological Sciences courses are offered only once a year. Some senior level courses are offered in alternate years.
5. Please keep in mind that course offerings will vary from academic year to academic year.
