Another Think Coming: Student Research Showcase at MacEwan University

Edmonton – MacEwan University’s annual Student Research Showcase is a celebration of the undergraduate student research currently conducted at the university. There are a variety of activities that highlight the university’s undergraduate student research, including a poster display, creative display, oral presentations, and keynote speakers.

The keynote speakers include Alexandra Hatcher, executive director and CEO of Alberta Museums Association; and Rajan Ahluwalia, president and CEO of GREYS Paper Recycling Industries Ltd.

Hatcher works with museums across Alberta to demonstrate their vital role within communities and has worked with the City of Calgary in the Arts and Culture Division. She is also a member of the Museum Strategy Steering Committee for the Edmonton Heritage Council.

Ahluwalia has been in the recycling business since 1989, and he is fond of saying, “be in tune with nature and nature will take care of itself.” An environmentalist and entrepreneur, he has discovered a way to convert cotton into cellulose and then paper.

Participating partners include:

- Alberta Foundation for the Arts
- Alberta Innovates (AI) and AI Technology Futures
- BECii (BioWaste to Energy for Canada)
- The Business Link
- Edmonton Research Park
- Edmonton Social Planning Council
- National Research Council National Institute for Nanotechnology

The event is sponsored in part by Syncrude.
